MODEL 58L SERIES ESCUTCHEON LEVERS

FEATURES

1. Non-handed and easy to install
2. Available in four finishes: US3 (605), US20A (690), US28 (689) and US32D (630)
3. Trim has two through bolts that connect to the device chassis providing increased durability and security
4. These trims are anti-vandalism type that prevents the lock from damage when the lever is locked.
5. These trims have four operational options as per the table below.
6. Cylinder sold separately

Escutcheon plate is made of steel or stainless steel. Lever handle is made of zinc alloy.

Trims will accept cylinders from other manufactures.

Cylinders are not furnished standard. When ordering please specify

RC - Regular cylinder

IC - Interchangeable Core

NC - No cylinder
